Dimensions

Height = 62 cm (24.4")

Width = 17 cm (6.7")

Depth = 17 cm (6.7")

Description

Circa 1900-1930. A fine quality desk lamp with adjustable arm and the original iron weighed base. It weighs 2.4kgs. The length of the arm is slightly shorter than the other almost identical lamps we have on this website, and all thought to have been made by the old G.E.C. (General Electrical Council). The lamp measures 62cm in height, the base is 16cm in diameter and the length of the arm is approximately 17cm. It was rewired by the previous owner. We have several period glass lampshades in stock and a few are shown here. If you are interested in finding a shade to match please get in touch and we will send details of those that may suit the lamp. Postage and packing within the UK mainland only is included in the price and for outside areas or abroad please contact us for a delivery quote.

Internal Ref: 1816
