Depth = 28 cm (11.0")

Description

Fantastic Victorian oak Grandfather clock in excellent condition and in good working order and comes with its original weights, pendulum, winding key and cabinet key. The hood has a swan neck pediment and beautifully turned columns with brass capitals. Inside is a brass face which has a silver coloured dial and decorative spandrels. The attractive etched dial has 2 additional dials marking seconds and day of the month. The case has an arched shaped glazed panel door and sits on a square panelled base with shaped plinth. Like all antiques there are the odd age-related marks but that does not diminish the outstanding quality of a true statement item like this grandfather clock. Tempus Fugit - time flies

Internal Ref: SAI2998
