Depth = 10 cm (3.9")

Description

This is a very rare and fine example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. The watch is the Omega Seamaster Turler automatic from 1968 with fully automatic calibre 564 certified chronometer grade movement. The model reference number is 168.022. The dial with date facility is totally original, unmarked and perfect. Overall the watch is in near mint original condition with just a very few minor marks to the case. Turler were the Swiss premier jeweller akin to Asprey in the UK or Tiffany in the USA, only the very best examples were given the Turler name on the dial. It is fitted to a premium quality brown leather strap but we can fit any colour or style you prefer, it also has an Omega buckle. As you would expect the watch is fully marked on the dial, movement and case. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whispers class. The watch case measures 36.5mm in diameter not including the crown which makes this an oversize. The watch has been fully serviced and is guaranteed to be a genuine Omega in all respects. It has been professionally overhauled.
